- Auto Darkening Complex – A proprietary blend that allows tanning results to develop more rapidly and evenly for desired color perfection.
- Raspberry Ketones – This natural ingredient includes Erythrulose, a ketone sugar that interacts with the amino acids in your skin, resulting in a golden brown hue.
- Glass Skin Complex – Containing a blend a Snow Mushroom, Ceramides and Vegan Squalane to create a smooth, and intensely hydrated complexion that appears dewy and luminous.
- NeuroGlow™- Boosts your skin's natural glow, helps to fight dullness, and leaves your complexion radiant and vibrant.

- Vegan Collagen – Helps to strengthen and condition the skin to visibly improve texture and suppleness while also helping to restore skin's natural bounce and resilience, diminishing the look of fine lines & wrinkles.
- Blue Tansy™ + Color Correctors – Provides anti-orange agents so the skin develops the most natural, beautifully dark bronzed result.
- Tattoo, Color Fade Protectors + After Tan Odor Eliminators – Protect the color and the luster of your tattoos while also helping to reduce any pesky after-tan odor.
